## // About Me

- I started my design journey in childhood and graduated top of my class in university. I worked for 3 years in design studios and then spent 6 years as a freelance consultant in furniture, interiors, and styling. I also co-founded a ceramics studio.

Now, I focus on UX/UI design—creating simple, user-friendly digital experiences with clear visuals and strong storytelling.

### • Design Skills:

Human-Centered Design. User Research  
Wireframing . Prototyping . Usability Testing  
UI Design . Interaction Design .Design Systems

## // Work Experiences

- Founder - Product Designer - Ceramic Artist & Teacher

### Pod Studio Ceramic | Dec '22 - Dec '24 |

In 2022, we—four women entrepreneurs—founded Pod Studio Ceramic, turning a shared vision into a creative brand. We built a strong visual identity, designed our studio space, and launched a website to showcase and sell our original ceramic pieces. Alongside product design, we offered ceramic workshops and collaborated with art studios to create engaging, hands-on experiences.

- Founder - Product Designer - Interior & Set Designer - Stylist

### Pod Studio | Apr '18 - Dec '24 |

In 2018, my friend and I founded Pod Studio, a design studio where we worked as freelancers for six years. We provided design and consulting services to various corporate clients (Doğtaş, Kelebek Mobilya, Alfemo..), focusing on furniture, interiors, retail spaces, set & stage design, and styling. Our strong research skill, problem-solving approach, and aesthetic sensibility played a key role in building long-term collaborations with our clients.

- Product Designer - Interior & Set Designer - Stylist

### Monestt Architecture | Aug '15 - Apr '18 |

Bringing innovation, offering alternative solutions, and creating aesthetically strong designs became my core design values. I developed easy-to-produce, trend-aligned furniture based on client briefs, designed sets and styling for their photo shoots.

- Product Designer / Erasmus Long Tern Intern - Germany - Düsseldorf /

### OC Oliver Conrad | Sep '14 - Feb '15 |

During the fall term, I completed an internship at Oliver Conrad Design Studio in Düsseldorf, Germany, as part of the Erasmus+ Internship Program. Throughout the experience, we focused on furniture design and developed projects involving sofas, chairs, coffee tables, and home accessories.
